

# COVID Vaccination Verification, Portability, and Tracking Solution

OSHA is set to issue an Emergency Temporary Standard (ETS) that will **require employers** with 100 or more employees **to ensure their workforce is fully vaccinated** or require unvaccinated workers to produce a negative COVID test on a weekly basis before coming to work.

## RETURN TO WORK WITH ENHANCED SAFETY AND PEACE OF MIND

Quickly Implement a COVID Vaccination Verification, Portability and Tracking Solution.

## SOLUTION SCOPE

COVID-19 Vaccination Card Upload, Anomaly Detection and Verification\*, Secure Portability/ Sharing (no App needed), Vaccination Tracking

## DESCRIPTION

Users upload their CDC Vaccination Card and enter related data into a secure portal. JDP offers an optional service to review Vaccination Cards and report any anomalies that are detected. JDP emails user with a QR code to demonstrate proof of vaccination. Users show QR code via phone or paper print out.

JDP offers optional COVID-19 testing services.

## BENEFITS

- **Proof of Compliance, Enhanced Safety and Peace of Mind:** Easily demonstrate proof of Vaccination status. Transparency/portability of QR codes issued by our Solution ensures facilities can verify proof of vaccination at entry.
- **Ease of Use:** Users can easily upload vaccination card, fill in information, and receive a portable and reusable QR code for use at work, as well as other personal venues.
- **Program Administration and Compliance Enforcement:** Vaccination Program administrators have access to vaccination tracking and status at any time.

## The Solution is Simple, Secure, and Portable

See an example Vaccination Verification by scanning the QR code with your phone's camera.

\*Optional Anomaly Detection and Verification service

---

# Ensuring Compliance and Increasing Workplace Safety and Confidence Has Never Been Easier

## INTEGRATED AND SCALABLE

The solution can be extended to integrate with access badges, other backend systems and workforce management tools, and our Verified Identity Documentation (vID) solution for compliance credentialing.

The solution can also scale to provide upstream verification of COVID-19 vaccinations at the source/ vaccination provider.
