JDP
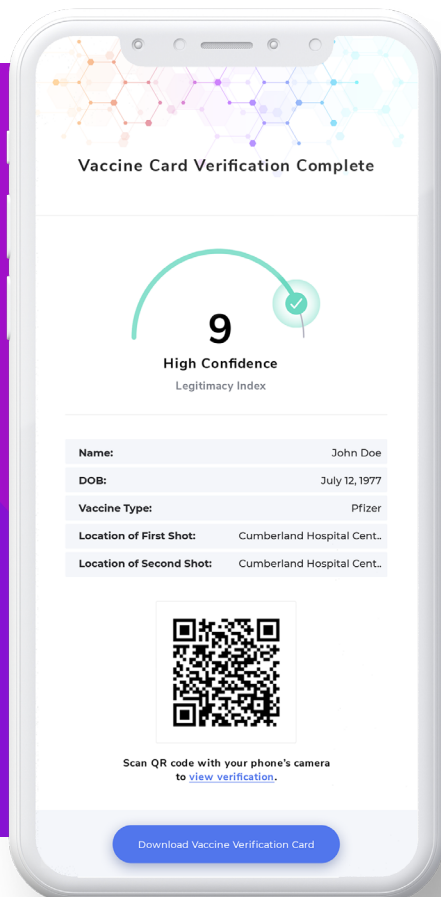

COVID Vaccination Management System (VMS)

OSHA is set to issue an Emergency Temporary Standard (ETS) that will **require employers** with 100 or more employees to **ensure their workforce is fully vaccinated** or require unvaccinated workers to produce a negative COVID test on a weekly basis before coming to work.

The Solution is Simple, Secure, and Portable

See an example Vaccination Verification by scanning the QR code with your phone's camera.
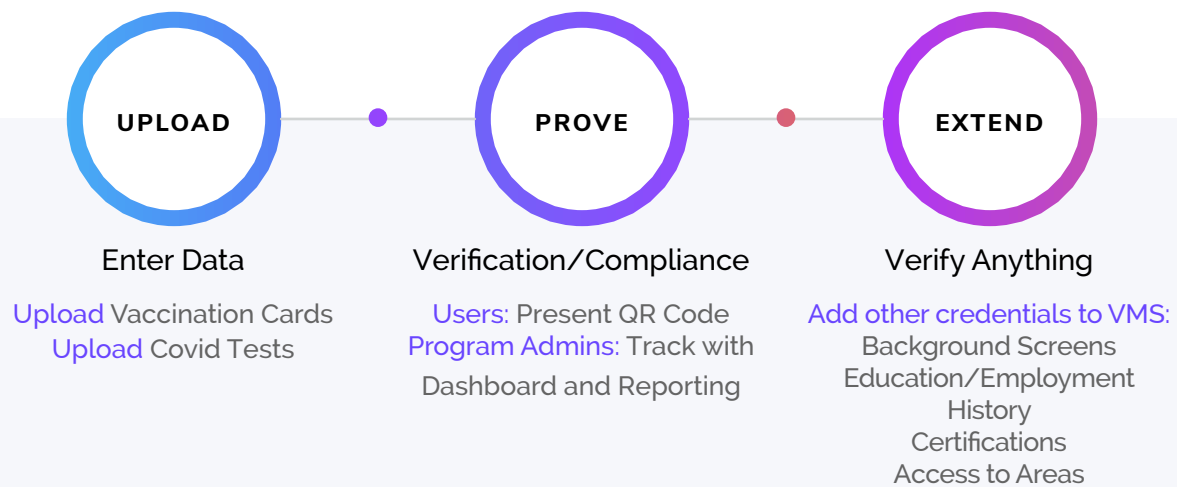

Return to Work with Enhanced Safety and Peace of Mind

QUICKLY IMPLEMENT A COVID VACCINATION VERIFICATION AND COVID TESTING PORTABILITY AND TRACKING SOLUTION.

SOLUTION SCOPE

Access to Vaccine Management System, vaccination card and Covid test upload, vaccination card anomaly detection (based on the level of verification/anomaly detection selected), vaccination and Covid test tracking and portability through a unique QR code, status reporting, and program administrator and User support.

UPLOAD

Enter Data

Upload Vaccination Cards
Upload Covid Tests

PROVE

Verification/Compliance

Users: Present QR Code
Program Admins: Track with Dashboard and Reporting

EXTEND

Verify Anything

Add other credentials to VMS:
Background Screens
Education/Employment History
Certifications
Access to Areas

BENEFITS

- **Program Administration and Compliance Enforcement:** Vaccination Program administrators have access to vaccination and Covid test reporting and status/tracking at any time.

- **Compliance, Enhanced Safety and Peace of Mind:** Vaccination card reviewed for anomalies by 3rd party. Transparency/portability of QR Code ensures facilities can verify proof of vaccination or current negative Covid test at entry.

- **Ease of Use:** Users can easily upload vaccination card or Covid test report, fill in information, and receive a portable and reusable QR code for use at work, as well as other personal venues.
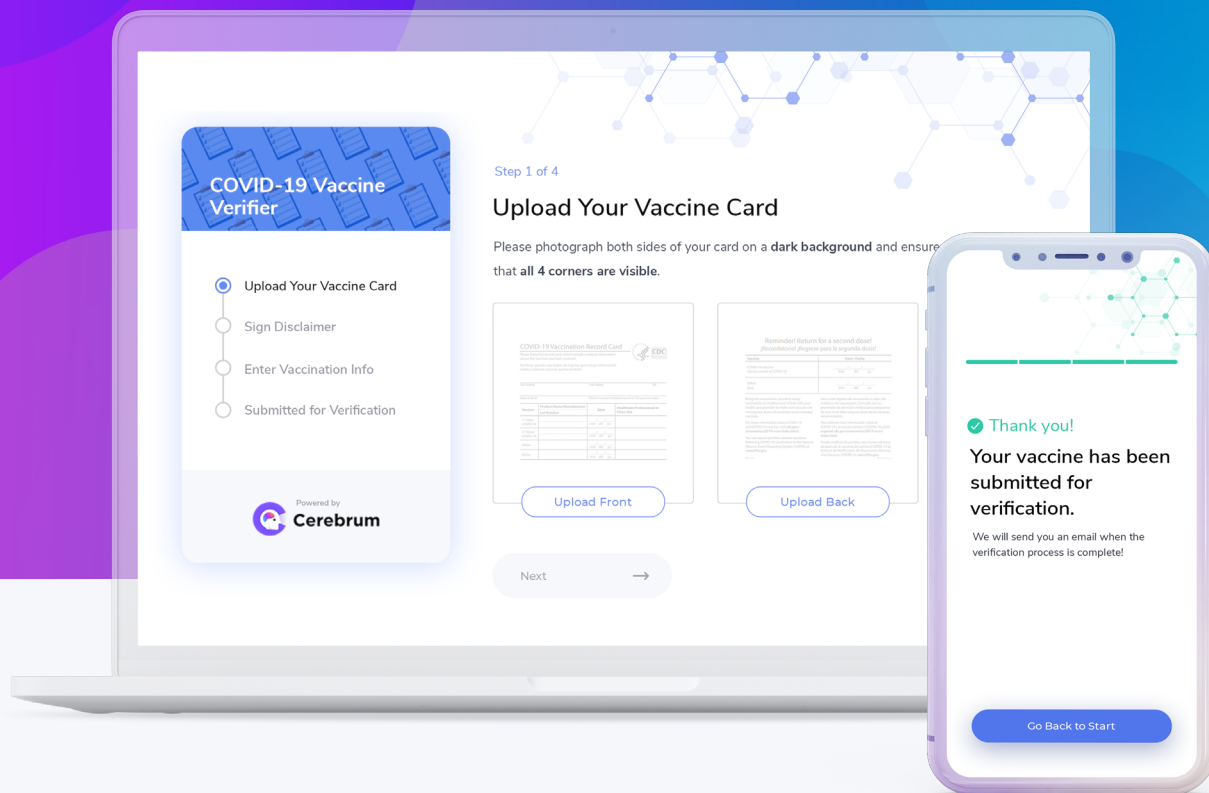

Ensuring Compliance and Increasing Workplace Safety and Confidence Has Never Been Easier

INTEGRATED AND SCALABLE

The solution can be extended to integrate with access badges, other backend systems and workforce management tools, and our Verified Identity Documentation (vID) solution for compliance credentialing.

The solution can also scale to provide upstream verification of COVID-19 vaccinations at the source/vaccination provider.

COVID-19 Vaccine Verifier

- Upload Your Vaccine Card
- Sign Disclaimer
- Enter Vaccination Info
- Submitted for Verification
