---

# DASHBOARD FEATURES

---

## Basic Features

Available from the homepage, the Dashboard provides you with quick and easy access to the system functions. The below tabs are available:

- **Home:** This is where legislative and alerts are as well as contact information for Customer Service.
- **Order:** This is to place a new order.
- **Reports:** This is to view reports that have been ordered.
- **Admin:** This is to add new users or edit current user permissions.
- **Utilities:** This is to run reports such as turnaround time.

---

# ORDER TAB

---

## Overview

The JDP Platform Order Entry process follows a step-by-step sequence and will vary depending on the component(s) or package that you are ordering. For example, if your package does not include an employment verification report, you will not be required to enter the subject's present and past employment information during the Order Entry process.

## Packages

### Package Details

Packages in The JDP Platform provide you with a convenient selection of multiple component combinations. The JDP Platform package details can be viewed by selecting the package from the product/package from the "Order" tab.

## Creating Your Order

### Getting Started

To begin the Order Entry process, click on the Order tab and select the appropriate package for the candidate. After selecting appropriate package there are 2 options at the bottom:

- **Quick App:** this process would require you to enter in the candidate's name and email address, then an email would be sent to the candidate to complete the background questionnaire
- **Next:** this process would require you to enter the information needed to complete the background questionnaire.

## FREQUENTLY ASKED QUESTIONS

---

### Order Entry

- Q:** Why do I need to input the Social Security number on the initial Order Entry page?
- A:** The Social Security Number field is the basis for your entire order. Using this number, The JDP Platform develops a list of names and addresses reported and return them in a "grid" that can be used to make criminal search history requests. This grid allows you to see addresses and names that your applicant may not have provided. The grid will only appear if you have a Social Security verification and public records search included with your order.
- Q:** I made an error during my Order Entry, but I caught it before I submitted my search. How do I fix this before submitting my order request?
- A:** Continue with the Order Entry process until you reach the Order Summary page. This page allows you to review the contents of your order before you submit it for processing. For each section of your order, there will be a small Edit button in the gray section header. By clicking the button, you may safely return back to the section that you wish to correct or edit. The only item that cannot be changed during the Order entry process is the Social Security number. If you need to change this number, please call Customer Service within 24 hours of submitting or entering your order request. DO NOT use your Internet browser's Back button during the Order Entry process. Doing so will cause transmission errors during your order.

### Order Viewing

- Q:** How long does a Background check take to complete?
- The National Criminal Database search is near instant. If there is a hit, additional research will be conducted which can take 24 hours.
- A:**

### Administration

- Q:** How do I change my password?
- A:** Click on your name in the top right corner and select, "My Profile". Under Security tab, you are able to change your password using the criteria provided.
- Q:** I would like to receive e-mails letting me know when my reports are complete. How can I set this up?
- A:** Contact Customer Services and we will edit the settings. You can choose from receiving email notification after every search is completed or after the entire order is completed.
